

SANGRAM GANPAT SHINDE

Computer Engineer

✉ sangramshinde943@gmail.com

☎ 9373449787

📍 Baramati - 43102, Pune, Maharashtra

SUMMARY :

Motivated Computer Engineering graduate skilled in Java, Spring Boot, Python, C++, Data Structures, Algorithms, MySQL, HTML, CSS, and Prompt Engineering. Strong problem-solving and communication abilities, seeking opportunities to apply technical expertise and project management skills

SKILLS :

- JAVA
- SPRING BOOT
- DATA STRUCTURES
- ALGORITHMS
- OBJECT-ORIENTED PROGRAMMING
- HTML
- CSS
- BOOTSTRAP
- JAVASCRIPT
- MYSQL
- PYTHON
- C++
- PROMPT ENGINEERING

LANGUAGES :

- ENGLISH(FLUENT)
- HINDI(PROFICIENT)
- MARATHI(NATIVE)

➤ EDUCATION :

- **B.E. IN COMPUTER ENGINEERING**
DR. D. Y. PATIL INSTITUTE OF TECHNOLOGY, PUNE
CGPA: 8.98 / 10.00
- **12TH | CHAITANYA INTERNATIONAL SCHOOL, BARAMATI |**
PERCENTAGE: 72.15 / 100.00
- **10TH | VIDYA PRATISHTHAN'S NEW ENGLISH MEDIUM SCHOOL, BARAMATI |** PERCENTAGE: 85.20 / 100.00

➤ CERTIFICATIONS :

- 1) **Learn Java Course | Codecademy | 2023**
- 2) **Learn SQL Course | Codecademy | 2023**
- 3) **HTML | Codecademy | 2023**
- 4) **CSS | Codecademy | 2023**
- 5) **Bootstrap | Codecademy | 2023**
- 6) **JavaScript | Codecademy | 2023**
- 7) **Prompt Engineering for Software Engineers Course**
- 8) **Project Management Course | SimpliLearn**

➤ PROJECTS :

Hotel Reservation System

- Developed a robust hotel reservation site script with HTML, CSS, PHP, and MySQL.
- Prioritizing user-friendly features like room availability search and seamless inventory browsing.
- Implemented a payment and SMS booking confirmations, elevating the site's functionality for effective and efficient hotel management.

Java Invoice Generator

- I crafted a Java application utilizing Spring Boot for robust backend management.
- Facilitating the generation of detailed customer bills and invoices.
- This system seamlessly integrates Java, Spring Boot, and specific functionalities for efficient hotel bill and invoice generation.

Servify.io

- Servify.io revolutionizes the service-finding experience, offering a dynamic and user-friendly web platform meticulously crafted to simplify the process of discovering dependable service providers for everyday tasks.
- The website seamlessly connects users with sought-after services like plumbing, cleaning, and electrical work.
- Users effortlessly engage with trusted professionals, and the platform meticulously ensures a seamless user experience while curating high-quality matches between users and service providers.
